PO Box 672
Fremont, NE 68026

Dear Helroy LLC:

This letter is to inform you of a chemigation system re-inspection on your field NW 35-27-48 (B1). Staff at the Upper Niobrara White Natural Resource District understand there has been a delay in receiving the parts needed to make the repairs before the re-inspections can take place. Please allow this letter as a form of communication to inform your organization that as soon as the repairs have been made, NRD staff will need to conduct a reinspection on each individual field before any chemigating can take place next spring. **Any chemigation that takes places prior to the inspection may be subject to penalties.**

If you have further questions, please feel free to contact the NRD office at (308) 432-6190.

Sincerely NRD staff,

A handwritten signature in blue ink that reads "Tricia Goes".
