Yield Exclusion (YE) Note: An insured is only required to sign the APH database when YE is elected and the insured has chosen to opt-out of excluding an actual yield(s) in eligible crop year(s). Any exclusion or opt out of exclusion of an actual yield(s) in eligible crop years in an APH database continues to apply in subsequent crop years unless the insured cancels the YE option by the SCD for the crop or notifies the AIP in writing by the PRD to change which actual yields are excluded or opted out of exclusion. If the insured chooses to no longer exclude an eligible crop year in an APH database by the PRD, the previously excluded actual yield(s) are used to calculate APH yields.

Yield Exclusion (YE) Note: An insured is only required to sign the APH database when YE is elected and the insured has chosen to opt-out of excluding an actual yield(s) in eligible crop year(s). Any exclusion or opt out of exclusion of an actual yield(s) in eligible crop years in an APH database continues to apply in subsequent crop years unless the insured cancels the YE option by the SCD for the crop or notifies the AIP in writing by the PRD to change which actual yields are excluded or opted out of exclusion. If the insured chooses to no longer exclude an eligible crop year in an APH database by the PRD, the previously excluded actual yield(s) are used to calculate APH yields.
